

Internet journal

Luís Cassandra

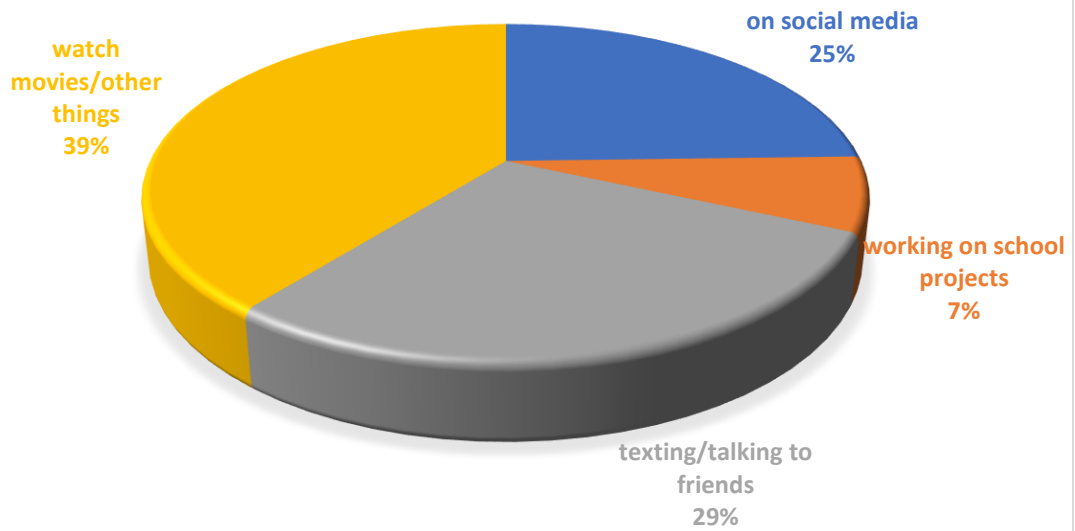

I was using the computer 18,6 hours, which is equal to 41% of the total time. It means that I was using my mobile phone for 59% of the time (44,95 hours).

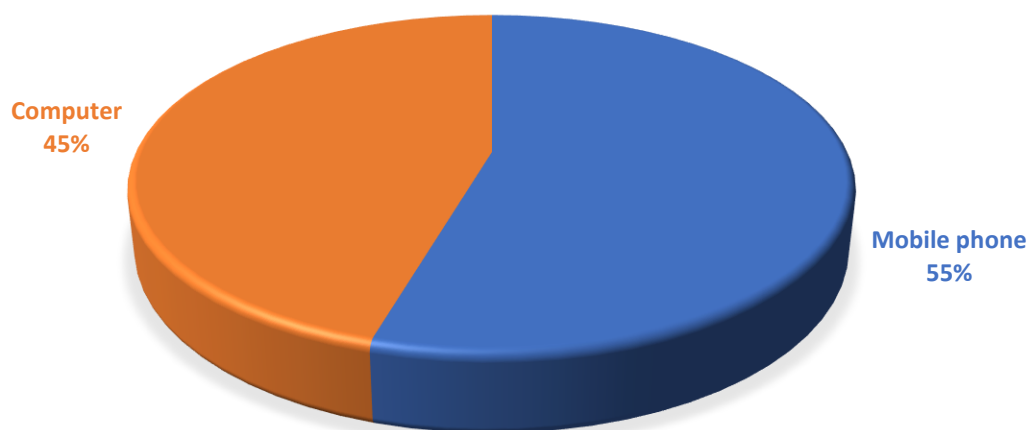

this month I used the phone more to watch movies and on social networks and the rest I spent talking to my friends and on the computer, I was studying

I SPENT MY TIME

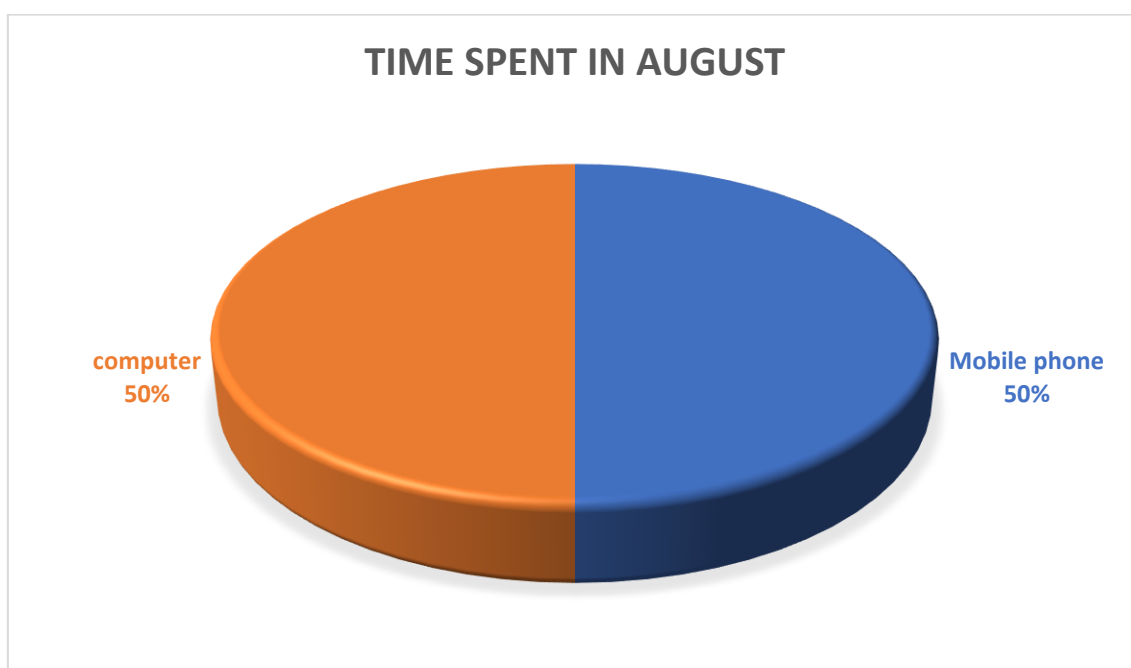

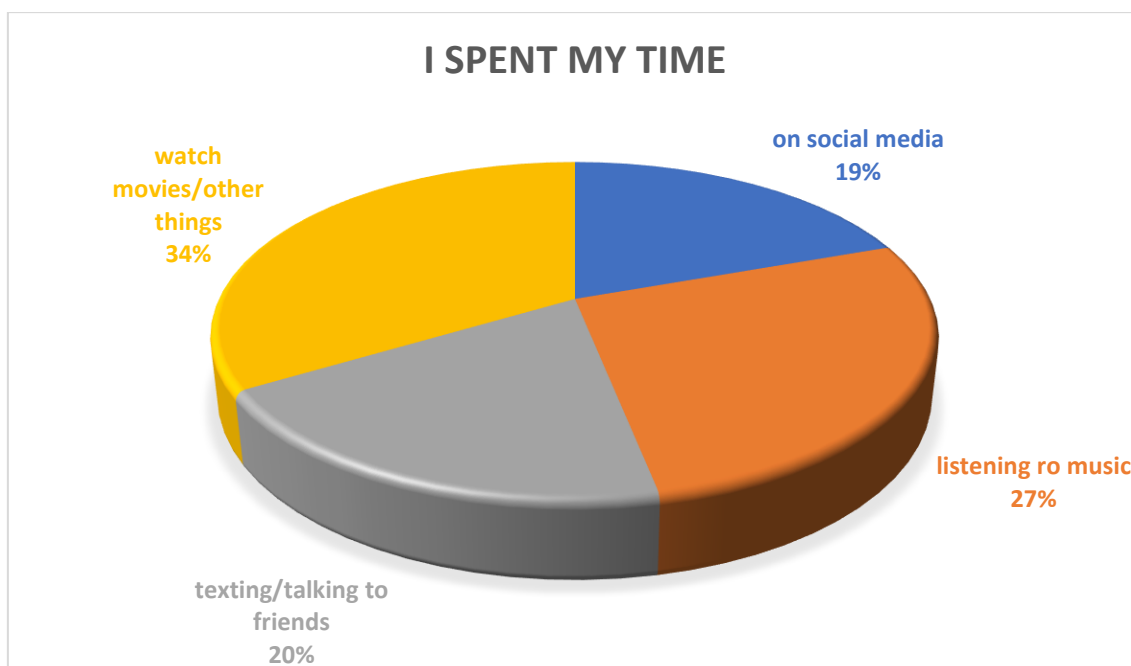

TIME SPENT IN JULY

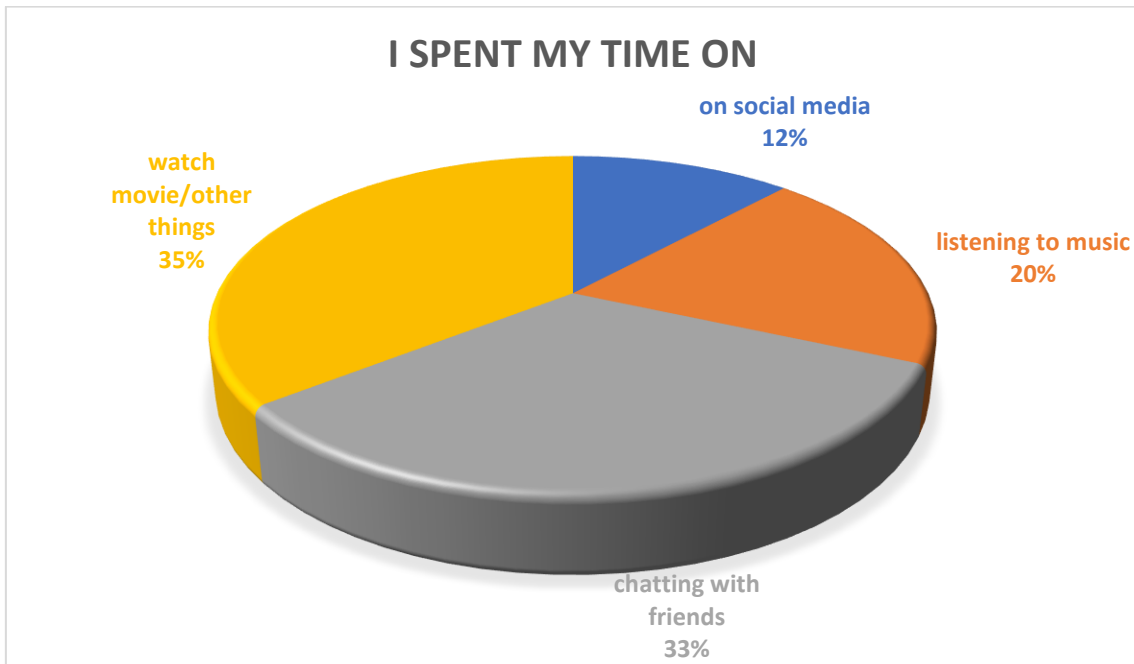

this month I didn't use the phone and the computer much I was playing basketball in the streets and listening to music

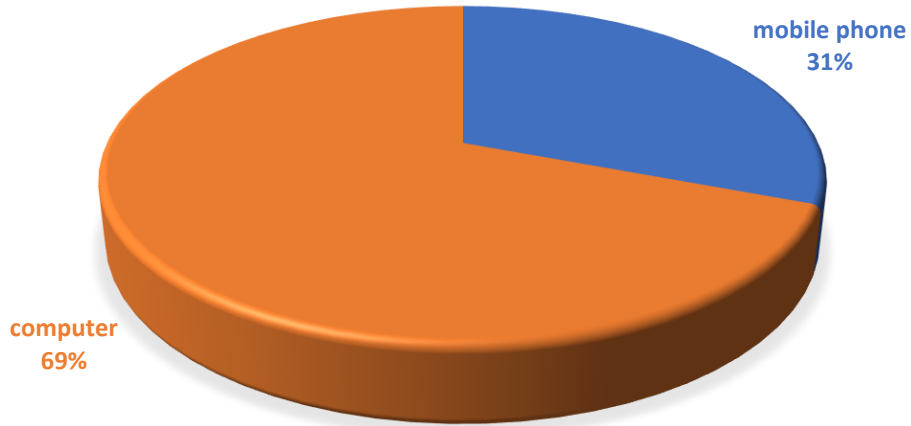

this month i used both the phone and the computer to have fun and to listen to music

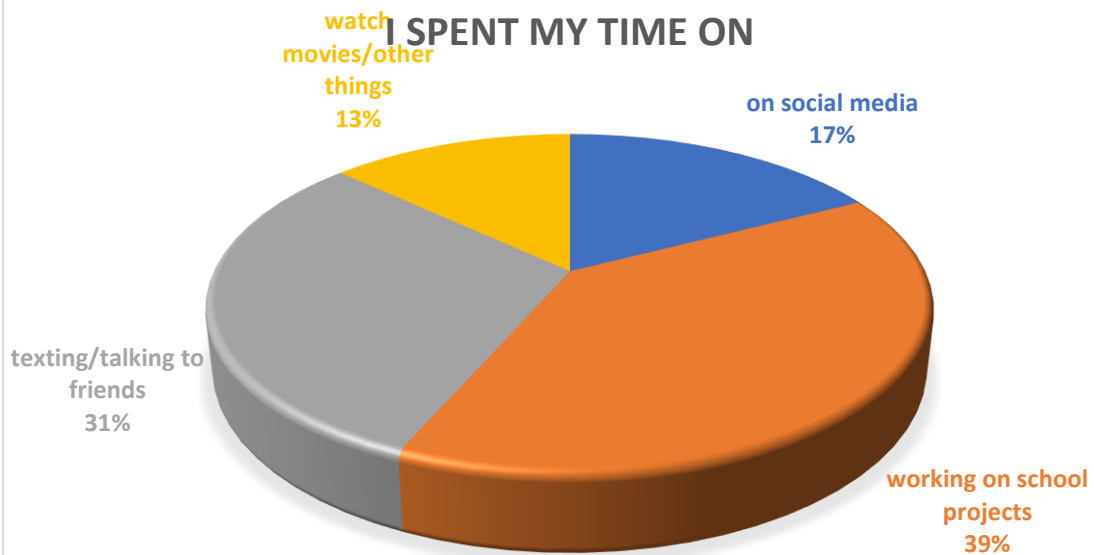

TIME SPENT IN SEPTEMBER

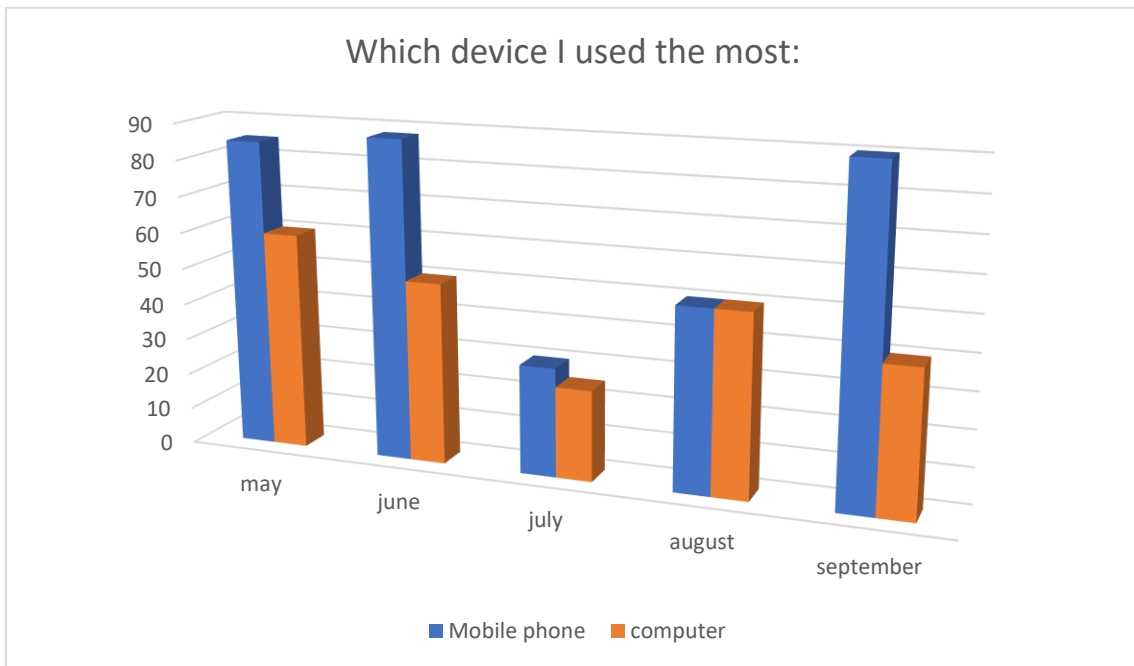

In this month i use most the computer because of my school projects and study for tests and for the phone i use t used it just to be on social media

I SPENT MY TIME ON
