My Internet Usage per hour day by day

My Internet Usage day by day

My Internet Usage in a week

My Internet Usage According to categories

- Social Media (14 hours 7 minutes)
- Search Engine (1 hour 32 minutes)
- Watch & Listen (1 hour 4 minutes)
- Communication (4 hours 3 minutes)

Summary

I don't use my phone a lot because It's not flexible for my works and projects. I just use it for communication and photographing. Except my phone, I'm using my PC but there is no logger to keep time I spent on my PC with times. So I just did this presentation according to my phone's logger.

Summary

According to info, I spent my 21 hours and 46 minutes on my phone in a whole week. As percentage, I spent ~12% of my week on my phone. It's not a lot if we will have look to whole week.

Summary

In every graphs, there is a huge column or piece as you can see. As I mentioned lastly I'm using my phone as a communication device. Social media or just Instagram took my ~68% of week.

Summary

I spent ~4% of my week with Youtube and Spotify. Sadly, my phone isn't logging apps when I was run them in background. So It should be more than the percentage :D

Summary

Finally, I spent ~6% in Google Chrome in a week. I'm not using Chrome a lot. I just use It when I need to learn calories of meals, I need to be careful about calories. Except that one I'm using browsers for quick job. I can use calculator app but It's better to use browser's calculator but just in PC.
